

## **A unique “surf” charter on the luxury live-aboard “Infiniti” in the Andaman Islands to delight world’s surfing enthusiasts**

- **Fully catered, hosted, guided 10-day surf trip**
  - **Surf trip of a lifetime!**
- 

This April, the Infiniti live-aboard – a luxury super-yacht in the Andaman Islands will serve up a very special treat – an exclusive surf trip that will take surfers to the best waves & breaks in the Andaman Islands.

The Andaman & Nicobar Islands are a group of 572 islands in the bay of Bengal of the Indian Ocean; a part of India. It is well known that Andaman Islands are a diver’s paradise – but it has been a secret that there are also amazing waves here that make it a surfer’s dream destination.

The Andaman’s burst onto the surfing scene via John Seaton Callahan’s video opus *Thicker Than Water*, which featured the first known surf trip into the area after decades of government restrictions were finally lifted.

Earlier, a surfing adventure here meant a few days or arduous travel and budget accommodation – but now there is a chance to surf the exclusive waves in total comfort & luxury from a fully equipped, brand new live-aboard.

The surf trip on the Infiniti has been finalized as a ten-day trip to the East & West coast of Little Andaman, South Sentinel, Cinque & Twin islands from March 29<sup>th</sup> to April 8<sup>th</sup>. It will be a catered, guided & hosted trip with expert surfers onboard and delicious fresh meals served all day. As an extra, diving will also be available including PADI courses (though the main focus will be surfing).

### **The Surf:**

The Andamans are tropical islands in the Bay of Bengal, and most waves break over shallow, sharp reef. With both high performance and barreling waves, this region is suitable for intermediate to advanced surfers. A few surfers make their way to Little Andaman each year, and there are rumors of a surf camp in the area, but crowds are never a factor. On any of the other islands, you’ll be the only surfer.

### **Some known Waves Worth Surfing:**

Kumari Point: The original Andaman discovery, Kumari Point is a long, fast righthand barrel over reef in an isolated location on Little Andaman

Muddys: A long, rippable, punchy lefthand reef break

Jarawa Point: a rippable lefthander with limited land access on Little Andaman

Jackson Creek: Another lefthand reef break on Little Andaman.

Corbyn’s Bay:

### Totem Reef:

Explore: The Andaman and Nicobar islands are still largely protected by the Indian government, and for the most part unexplored. With a charter boat and a bit of patience, one could discover all kinds of waves in this area.

**Water:** The Andamans are extremely isolated and undeveloped, and enjoy the crystalline water that has come to be expected in a tropical island paradise. Water temps hover in the low 80s F (upper 20s C) year round.

**The Live-aboard:** The surfers will be hosted on the brand new luxury live-aboard Infiniti. The Infiniti ([www.InfinitiLiveAboard.com](http://www.InfinitiLiveAboard.com)) is a RINA certified, high quality live-aboard fully equipped for a luxurious stay and sailing:

- Large 37m yacht with four decks
- All inside areas fully air conditioned
- Onboard kitchen with a dedicated chef
- Indoor lounge with entertainment, outdoor lounge, huge sundeck, indoor dining
- Spacious rooms nicely furnished with supersize twin beds and storage, picture windows with ocean views
- Ensuite bathrooms with hot water
